Focused Software Developer with experience across scripting, testing and platform design. Integrates practical full-stack engineering knowledge for enhanced digital experiences. Adapts well to projects of varied scopes and sizes for reliable end-to-end development.

WORK EXPERIENCE

Software developer, 10/2021 - Current

IPSOS MMA, Bengaluru, India

As per my job requirement, I enter as a front-end developer. From January 2022 to now I working as a front-end developer, and I consistently use React-JS. Since October 2022 I have been working in .NET and now I am learning about advanced database systems. I created two projects from start to end for my company's development.

SKILLS

- HTML, CSS and XML
- React JS
- JavaScript
- .NET
- Software applications
- SQL
- Database programming

ACCOMPLISHMENTS

- Planned and coordinated two projects parallelly as a result increased their development work.
- Apart from the development teamwork, I also worked as a support worker.
- Create a custom client-based dashboard that reduced our support tickets.
- Daily maintenance and testing of our application and solving user problems.

EDUCATION

Graduate from Techno India Banipur College(TIBC), North 24 Parganas

- Secondary (Passed in 2014)
- Higher secondary (Passed in 2016)
- Graduate in B.Tech (Passed in 2020)

PROFESSIONAL AFFILIATIONS

- Lead a project from start to end.
- Currently leading the support team for my project.

ADDITIONAL INFORMATION

- Create a short chatbot application.
- Learning AWS (EC2, S3)

CERTIFICATIONS

- Best Employee of the Month
- AWS

PROJECTS

- Real-time chat application: MERN(MongoDB, Express, React JS, Node.js) based web chat-bot application. To make HTTP requests from node.js, I used Axios for that. It's a real-time web chat application.
https://github.com/AgnivDas97/MERN_ChartBot_Application/blob/main/chatbot.zip
- Product store application: Here, I am using ASP.Net Core, target framework .NET 6.0. For the Database, I used the local storage DB, the connected service was SQL.
