

AGNIV DAS

Senior Software Engineer

+918617508342 @ agnivdas091@gmail.com LinkedIn/ Portfolio Bangalore, India

SUMMARY

I am an experienced Software Developer with a strong focus on scripting, testing, and platform design. I combine practical full-stack engineering expertise to optimize digital experiences, consistently working on modifications in existing programs and implementing efficient code solutions

EXPERIENCE

Software Engineer

IPSOS MMA

10/2021 - 05/2025 Bangalore, India

- A market research and consulting company that provides data-driven solutions
- Developed a Dynamic Full-Stack Analytics Dashboard utilizing React.js for the front-end, Node.js/Express for the back-end, and MongoDB/PostgreSQL
 - Implemented Full Web Page Navigation System with React Router and server-side routing
 - Optimized Application Performance through lazy loading, server-side rendering (SSR), and database query optimization
 - Designed and Developed Modular Side Panel Navigation with advanced authentication systems
 - Built Full-Stack CRUD Functionality supported by RESTful APIs
 - Applied Functional Programming Principles using React hooks and reusable components
 - Managed Application State with React Redux and Middleware
 - Integrated Third-Party APIs and Authentication Systems
 - Developed and Deployed Full-Stack Solutions on AWS
 - Collaborated in Cross-Functional Teams
 - Developed a full-stack analytics dashboard used by 361 users, improving data accessibility for decision-making at IPSOS MMA

Senior Software Engineer

IPSOS MMA

05/2025 - Present Bangalore, India

- A market research and consulting company that provides data-driven solutions
- Lead development of scalable full-stack features using React.js
 - Mentored junior developers on code best practices and project workflows
 - Architected reusable front-end components using React Hooks and Context API
 - Improved development workflow by integrating automated testing and linting into the CI/CD pipeline
 - Led development of UI scalable full-stack features using React.js, resulting in a full increase in application performance

SKILLS

React.js	Redux	REST API	React Hooks	Node.js
Express.js	Socket.IO	React Router	HTML	JavaScript
CSS	AWS	Bootstrap	C#	.Net Core
SQL	Microsoft SQL Server	MongoDB	PostgreSQL	
Functional Programming	GitHub	JIRA	SourceTree	Agile

PROJECTS

Real-time Chatbot

11/2024 Bangalore, India

MERN-Based **Web Chat-Bot Application** for real-time communication

- Implemented WebSocket Communication using **Socket.IO** for real-time message delivery
- Designed a Responsive UI with React.js and CSS
- Integrated MongoDB as a NoSQL Database for efficient storage
- git link : [GitHub - AgnivDas97/Real-Time-ChatApplication](#)

Typing Test Application (TypeFlow)

09/2025 Bangalore, India

Developed a **full-stack MERN application** to measure typing speed (WPM), accuracy, mistakes, and real-time progress.

- Tech stack** (React, Node, MongoDB, JWT, Tailwind, Charts).
- Core features** (authentication, saving results, visualization, performance tracking).
- Impact** (helps users track improvement, interactive UI).
- git link : [GitHub - AgnivDas97/TypeFlow](#)

Product Store Application

12/2024 Bangalore, India

Web app developed for efficient product management using ASP.NET Core

- Developed a User-Friendly Interface using Razor Pages and Bootstrap
- Implemented **CRUD** Operations for product management
- Designed a Robust Backend with ASP.NET Core MVC
- git link : [GitHub - AgnivDas97/store_count](#)

KEY ACHIEVEMENTS

★ Best Employee of the Month (July 2024)

Recognised as the Best Employee of the month for outstanding contributions in July 2024

🏆 Best Employee of the Month (May 2025)

Awarded Employee of the Month in recognition of excellent performance, creative thinking, and outstanding contributions in May 2025

EDUCATION

Bachelor of Technology in ECE

Techno India College Banipur

08/2016 - 05/2020 Banipur
